📍 Ekkatuthangal, Chennai

Profile Overview:

I have 3 years of experience in Full Stack Development and am seeking to enhance my skills in .NET Core applications. Currently, I work as a Software Engineer at Vcidex Solution Private Limited Chennai, Tamil Nadu, specializing in the development of ERP software with advanced features. I focus on ensuring seamless functionality, cross-browser compatibility, and enhancing user experience and system efficiency.

Technical Skills:

HTML, CSS, Angular, C#.Net, ASP.Net, Web API, SAP Crystal Reports and MySQL.

Work Experience

HRMS & Payroll Project

Mar/2022 to Sept/22

Implemented the full functional flow from Employee Onboarding to Payroll Processing, integrating biometric and third-party APIs for automated daily attendance tracking and email triggers. Provided client support for Phillips and India Cements in ERP software.

Application Migration

Sep/2022 to Aug/2023

Led the UI migration of ERP software from ASP.NET to Angular and upgraded API services from .NET Framework 4.0 to .NET Framework 4.8, including the transition from VB.NET to C# for enhanced performance and maintainability.

e-Invoicing and Supply Chain Management

Aug/2023 to June /2024

Integrated third-party APIs into the GST Portal for e-Invoicing (IRN generation) and implemented the functional flow of supply chain management in ERP software.

Designed and developed Shopify API integration for Automatic order processing, seamlessly connecting Shopify's order management system with the ERP platform to minimize manual interventions. Designed invoice PDFs using SAP Crystal Reports for streamlined Documentation & Reporting.

CRM and WhatsApp Ordering System

June /2024 to Present

Developed a Travel application with integrated finance management features, including charts of accounts and automated invoice generation from AIR files. Integrated CRM functionalities to meet client-specific requirements (Uk Client) for ERP software.

Integrating Facebook-WhatsApp integration using third-party APIs for order processing in the mobile WhatsApp catalog to ensure orders are automatically reflected in the ERP system.

Application Deployment

Aug/2023 to Present

Performed manual deployment of API files and Angular applications on IIS using Visual Studio 2022 within Azure VMs, ensuring seamless configuration and optimal performance of deployed applications.

Awards

Received the Golden Star Employee of the Year award at Vcidex Solutions Pvt Ltd in 2023.

Education

B.E ECE

2018-2022

Einstein College of Engineering, Tirunelveli

8.65 CGPA, First Class Distinction
